Why is there a panic? For the first time in 50 years the US Government feels scared, because they have been exposed for what they are and they feel unsafe, for the first time in their life. They always got away with it

1 months ago by [HenkZeilstra](#) +4057 / -1

And now their puppet master is pushing them forward, while the people are pushing them back. With each move they feel the pressure mounting up and this is the panic. They are afraid of a revolution, the media failed its job to brainwash enough people.

If people start an armed insurrection or fighting breakouts out then America will fall, China will move in to pick up the pieces. All this talk about civil war and violence is exactly what our enemies abroad live for. The reality is any mass violence would simply destroy the country. That's not patriotism. I truly wish more people could see that.

I was not ready before. I somehow still thought the system would right itself as the fraud was so obvious and the "riot" so clearly staged. But that is not the case. I now realize I will never be able to just live in peace anyways, so there is much less to loose now. I'm older and past my prime, but will do what I can without fear from now on.

I've been following these bastards for decades and they have never been wounded as much as this. Lots of people are disappointed that this attack on the Globalists might have failed, but they must realise that this fight has been going on a long time and most of it has been on the defensive. The fight for a free humanity never ends and we must keep showing these people for what they are.

I agree. I've been paying very close attention since Bill Clinton. I've never seen this level of panic. Normally, they just go on with the kabuki theater.

21 ▼ Then you'll know just how effective the last 4 years have been. We have tons of information now. We can start the process of planting seeds in the minds of ordinary people again.

The amount of people that thought that I was nuts who are now waking up is amazing. They are going to have to be more blatant now. The more we force them to be blatant, the weaker they become.

Deception is their only real weapon until they have society totally locked down. This is far from over.

11 ▼ I totally agree. They spent the last decades putting the sickening apparatus into place. Then they hosted a fun game show every 2 and 4 years and led us to believe we could vote and control the outcome.

I could always see what they were doing, but I would frequently be very perplexed as to their motive.

After the last 4 years, it is so blatantly obvious.

And everyone thought I was crazy too. Even my family who are very conservative.

8 ▼ Look at how effective it was in exposing the ENTIRE Republican Party. They've been truly exposed for who they really are. They can't walk it back either because for one, Trump will never let them and also because WE won't forget. You can count on one hand how many true Americans there are in that party. On top of that, they're even more hated now than their rivals on the opposite side of the isle. None of them can expose themselves in public, an airport or a public event anymore. They have no idea what's in store for them. Such a bad move.

It was never far fetched for those who know history and listened to the Founding Father's warnings KNEW it would become corrupt. Not a matter of IF, but WHEN. That is why they had the foresight to create the 2nd amendment. To give future Americans a fighting chance against such government.

23 ▼ They are in pure panic mode. They know full well this is how history goes, when you destroy a society. Eventually those in society will rise up and overthrow you. As said before, our forefathers would have been marching and demanding them to come out peacefully before they were dragged out. That was 6 months ago during the middle of the fake pandemic.

They are hoping that they can scare Trump with the articles so he just leaves before the 20th. Then Pence will just hand over the keys while he gets the green light to offer Trump a olive branch with a pardon for anything. The whole idea is to have him go away by himself, thus discrediting the MAGA movement. If he doesnt they will just go ahead and strip Trump via impeachment of any protection he has.

The whole goal is to discredit us, force us to back the "Republicans" all the while China Mitch yokes us and milks us for money with slogans.

This is the message that needs to be heard. I was at the rally and was pretty doomed heading home. It's hard not to be with one of us murdered on prime time and then all us patriots being labeled as terrorists. I mean, fuck. That was unexpected!

But yesterday, I truly realized we are winning. Normies are waking up and the iron hand of the corporate giants is revealed. They are truly afraid, and we will shitpost them to death. Look at old Linda Graham—that was epic!

DO NOT DOOM. DO NOT GIVE IN. NEVER, NEVER, NEVER QUIT.

5 I'd wager the deep state has plans for to never allow any of this (Trump, MAGA, populism, America First) to ever happen again. It's already started with internet censorship and now vilification of the Capitol protests. All future Presidents will be uniparty from now on.

3 Hence the lockdowns, restrictions on having more than X number of people gathered in one place, the requirement that no more than two families can be in the same home at any given time, and so on.

They did everything they could to restrict in-person social activity over the past year and drive everything to web based platforms that they controlled, so they could purge us from those places when it was time to strike. These restrictions have been in place for so long that even when lifted, people continue to stay home out of habit.

They definitely thought this through.
